Vejledning:

Print begge hæfter: Jeg træner *Den lille minustabel* - Opgavehæfte og Svarhæfte - ét sæt til hver elev (evt. A5).

Sådan bruges hæfterne:

Eleverne vælger den "firkant" de vil træne (1-11) - eller I regner dem i rækkefølge. Eleverne skal kun skrive resultatet.

Enkel og god træning af *Den lille minustabel*.

Ca. 10 min. til opstart af hver matematiktime 😊

Rigtig god fornøjelse!
