

# Lyn – banko med visuel støtte

**TIP: Pladerne kan også bruges sammen med almindelig banko**

Spilles på samme måde som almindelig banko – bare hurtigere, da der er færre tal 😊

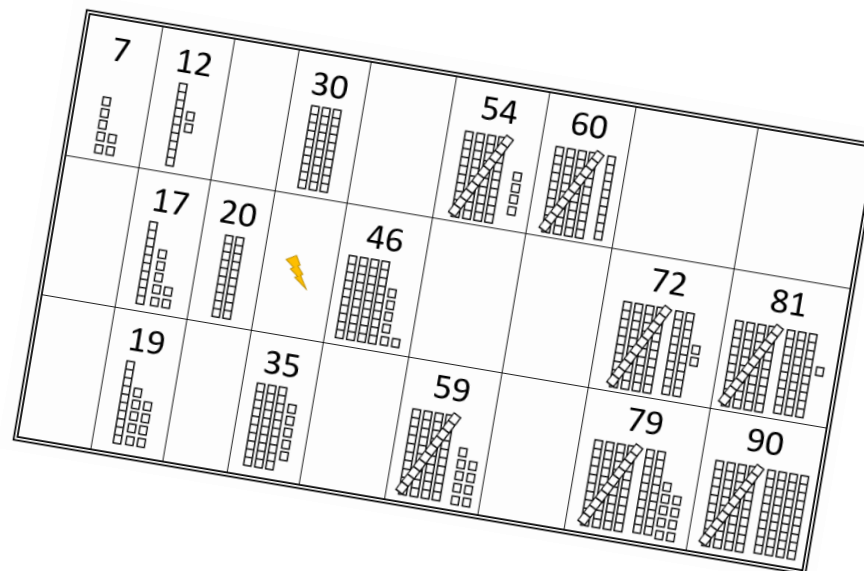

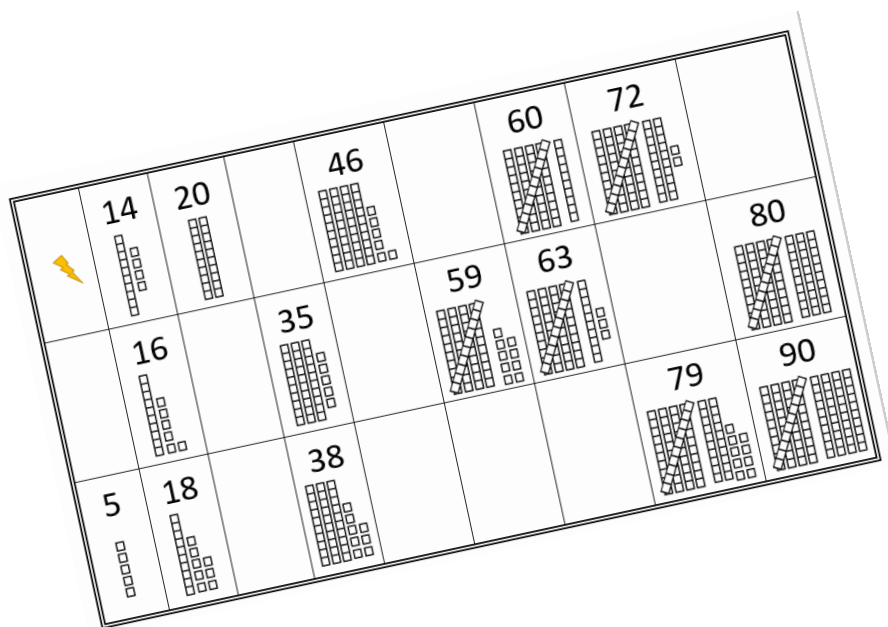

## Indeholder:

2 forskellige opråbsplader (med og uden visualiseringer) samt 30 forskellige bankoplader.

Alle plader har visualisering af tallene i enere og tierstænger.

Spillet har ekstra fokus på tallene 10-20 samt hele tiere, så det bliver ekstra anvendeligt som opstartsbanko.

Pladerne kan derfor også bruges som differentierede bankoplader i almindelig banko.

## *Plade til opråb:*

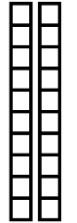

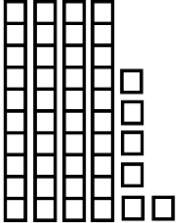

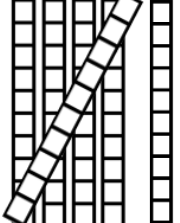

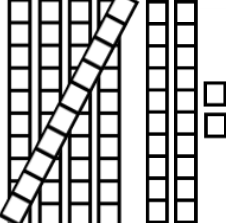

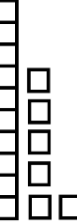

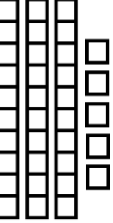

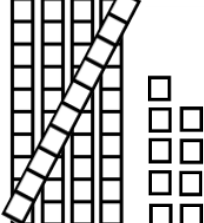

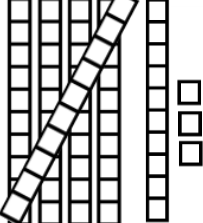

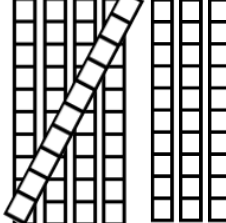

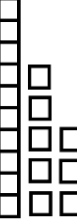

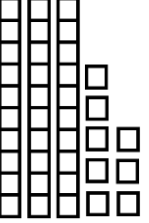

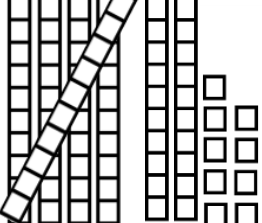

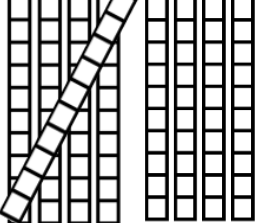

Print evt. en ekstra af denne side, som du kan klippe og bruge til udtræk af bankonumre.

## Plade til visuel opråb:

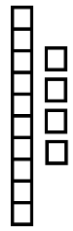

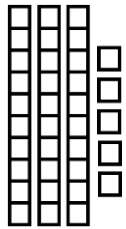

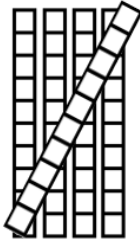

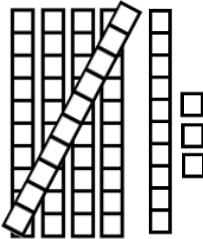

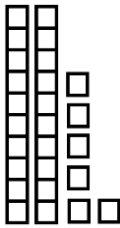

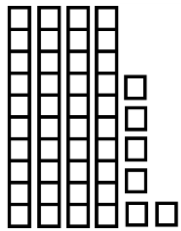

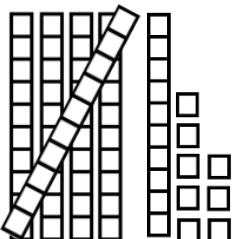

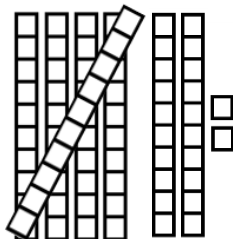

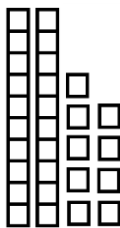

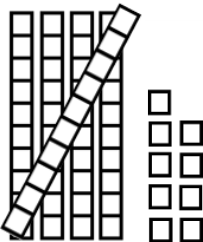

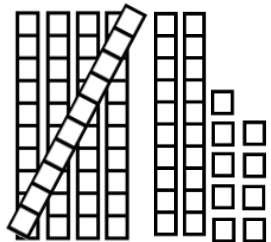

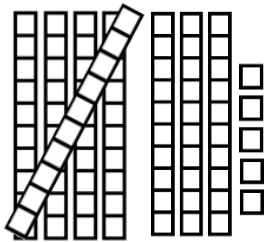

Forstør evt. disse kort, laminer og klip ud enkeltvis. Så kan kortene bruges som udtrækning og samtidig sættes op på tavlen, når tallet siges, så det også kan ses.
