

# Hentediktat

**Plusstykker med 10 og 9**

## **Aktiviteten:**

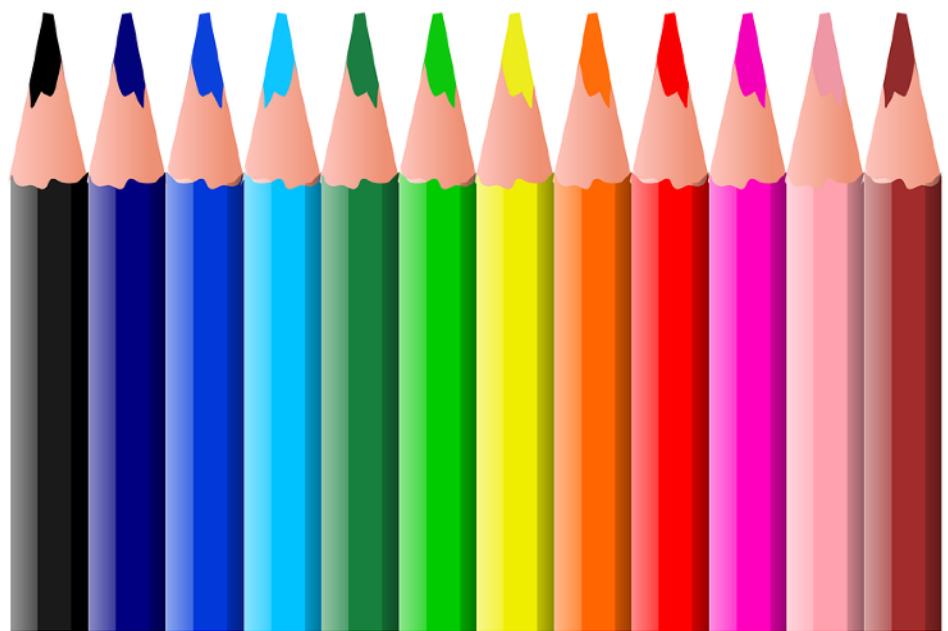

*Posterne kan bruges enten som hentediktat eller stjerneløb.*

- Forberedelse: Siderne printes i duplex, så er der bagside på alle siderne og de kan nemt finde på plads, når der ryddes op eller sider bliver væk
- Hentediktat: Alle posterne spredes over et passende område. Hver elev har en svarark, som de placerer et sted. Alle børn er i gang samtidig. Eleven løber nu og finder en post. Han finder måske posten med farveblyanter og 10 + 1. Nu skal han huske på farveblyanter og 11 og løbe retur til sin seddel. Ved farveblyanter skriver han 11. Så er det ud og finde en ny post indtil alle ting fra skolen er fundet.
- Stjerneløb: Der laves huller i alle poster og posterne hænges op på et passende område. Eleven får et svarark og løber nu **med** arket rundt i området. Herefter svares der på plusstykkerne og der skrives resultatet ved det dyr.

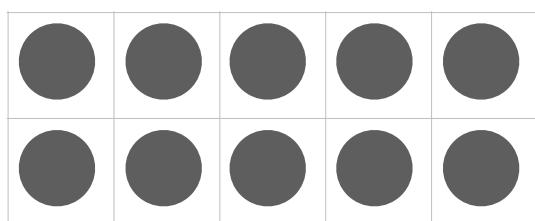

**Udarbejdet af Mette Bjørn-Breindahl.**
