

# Hentediktat

**Minuspar og minuspar -1**

## **Aktiviteten:**

*Posterne kan bruges enten som hentediklat eller stjerneløb.*

**Forberedelse:** Siderne printes i duplex, så er der bagside på alle siderne og de kan nemt finde på plads, når der ryddes op eller sider bliver væk

**Hentediklat:** Alle posterne spredes over et passende område. Hver elev har en svarark, som de placerer et sted. Alle børn er i gang samtidig. Eleven løber nu og finder en post. Han finder måske posten med hajen og  $2 + 2$ . Nu skal han huske på hajen og 4 og løbe retur til sin seddel. Ved hajen skriver han 4. Så er det ud og finde en ny post indtil alle dyr er fundet.

**Stjerneløb:** Der laves huller i alle poster og posterne hænges op på et passende område. Eleven får et svarark og løber nu **med** arket rundt i området. Herefter svares der på plusstykkerne og der skrives resultatet ved det dyr.

**Udarbejdet af Mette Bjørn-Breindahl.**
